RB — tiered (0-PPR + 14 teams = RB scarcity is REAL. Anchor early (Hero-RB) and secure starters before the tier cliffs. Target three-down backs and goal-line roles; their floor wins standard leagues.)

WR — tiered (Deepest position -- you can wait if you've anchored RB. Chase target share and yards-per-route-run. In the late rounds throw darts at high-ceiling (high-variance) WRs, not safe floors.)

VALUE = falls past ADP (draft him) · REACH = crowd takes him early · CEILING = wide range of outcomes (late-round upside) · SAFE = tight consensus floor. VOR = projected points over the replacement level for a 14-team Standard (0 PPR) league — the higher, the more scarce/valuable.
